ASSISTANTS: DRS S KAUSHAL, M EPSTEIN, A DEVAR, J LEES
NURSE PRACTITIONERS: JOANNA MULLINEAUX, KATIE BYRNE

NHS Ref: D82056

Travel Clinic

Dear Patient,

The Travel Clinic at Elmham Surgery has been set up to provide travel advice, immunisations and prescriptions for patients at Elmham and Swanton Morley surgeries and for patients from other surgeries who choose to attend.

You will find a questionnaire with this letter asking for details of your travel plans. **Please return this to the surgery at least 6 weeks prior to your departure date.** If you feel that you only require boosters or **Yellow Fever** please ask Reception to ask a travel nurse to call you to discuss, if it is less than 6 weeks before travel

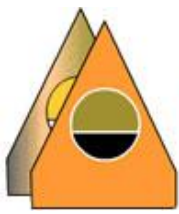

The nurses who run the clinic have all had training in travel medicine. They will advise you on what is the best regime for your travel and discuss the benefits and side effects of each choice. Their advice will be a clinical judgement. There are however different costs for the malaria tablets, though this will not influence the nurse's decision. The nurse will offer advice and it will be up to each patient to take matters of cost into account as they make their decision.

Some immunisations can be given to Elmham and Swanton Morley Surgery patients without charge as part of their NHS care. Other immunisations and prescriptions are not free and the charges for them are shown on the enclosed sheet. **You will be required to pay for all injections before they are administered.** You are free to take your private prescription for malaria tablets to other pharmacies, although we try to match our prices locally. If you chose not to buy your malaria tablets from the surgery, we reserve the right to make a charge of **£30.00** to cover the cost of the consultation with the nurse and for the provision of the private prescription. This charge is waived if our dispensary provides you with the malaria tablets.

We aim to provide an efficient and reliable service. Please let us know if there are any improvements that could be made.

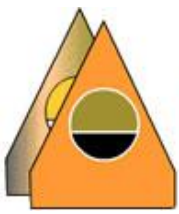

Have a safe holiday!

The Travel Clinic Team
